

419 Jallif Avenue  
Newark, N. J.  
February 26, 1972

Councilman Larry James  
Councilman of South Ward

Dear Councilman James:

In regards to your letter which I recieved from the Department of Public Workers, and the Police Department the problem of street cleaning is not being taken care of. There were three signs tied to three trees stating "Emergency No Parking", instead of No Parking, Street Cleaning on specific days. The first week in January some cars were towed off the streets.

The letter on February 14th, 1972 from Mr. John Redden, Director of the Police Department, and Mr. Edward L. Cyre, P. E. Engineer in charge of the Bureau of Traffic and signs, stated that temporary signs were placed up for street cleaning January 10th, and 11th, 1972. The signs were tied three to four feet above street level.

The sanitation department is negligent in collecting garbage.

It would be greatly appreciated if these matters were looked into immediatly. The citizens here are very concern about the neighborhood becoming more of a slum than it is now.

Yours Truly,

Mr. Robert Outsey
